

NINE INCH NAILS JANE'S ADDICTION SATURDAY, MAY 30 VERIZON WIRELESS MUSIC CENTER

ON SALE FRIDAY, MARCH 20 AT 10AM!

(INDIANAPOLIS, IN 3/16/09 at 7AM) - Nine Inch Nails and the original Jane's Addiction lineup will embark on a May/June co-headlining tour that will see these seminal artists sharing a stage for the first time since the historic debut of the Lollapalooza festival in 1991. The genesis of the upcoming tour came about in late 2008 after NIN's Trent Reznor was tapped to produce Jane's first recordings since reforming.

The NIN/JA tour will feature a streamlined NIN with Reznor on vocals, guitars, keys, Robin Finck on guitars and keys, Justin Meldal-Johnsen on bass and keys, and newest NIN member Ian Rubin on drums and keys. NIN's stripped down configuration for the upcoming dates was inspired by a pair of club shows toward the end of last year's wildly ambitious Lights In The Sky tour. Leaving the massive production in the trucks for those two nights freed up the band for spontaneous performances including several seldom-aired NIN classics and inspired NIN to take a similarly unencumbered and unpredictable approach to the May/June dates, which include previously announced NIN appearances at the Sasquatch and Bonnaroo festivals.

For the first time in seventeen years, the original lineup of Jane's Addiction will tour - vocalist Perry Farrell, guitarist Dave Navarro, bassist Eric Avery and drummer Stephen Perkins. The possibility of reforming first took shape in April 2008 when the musicians performed and accepted the Godlike Genius Award bestowed on them by N.M.E. Magazine at their US Awards ceremony. The band then tested the waters with small, secret shows around the Los Angeles area and the tremendous excitement from the shows lead to their decision to tour again.

Support for all NIN/JA dates will be Street Sweeper, a collaboration between Tom Morello of Rage Against The Machine/The Nightwatchman and Boots Riley of The Coup.
